

February, 2010

Dear Conifer and Plant Enthusiasts,

In October, 1979 we mailed a twelve page mimeographed list of plants which Bob was offering to custom graft at \$7.00 per graft. The first page provided ordering information, the last an order form. In between was an alphabetical list of available cultivars with a very brief description. That was our first "catalog." Since then we have printed twenty more professional catalogs.

Two years ago we published our catalog online at www.cnos.biz. We were able to give descriptions with color photographs for all of our offerings. We did not intend it to be a full service commercial site but a more informative one. We also placed a copy of our catalog in a format that could be downloaded by anyone visiting the web site.

Due to the success of our online catalog and because of the expense of a printed catalog, we have decided to put most of our efforts into the online catalog and downloadable file. We will only publish a price list for mailing. The bulk of our information is at www.cnos.biz.

You can assemble an order from this list or from the online catalog. You can then email your order or use the attached form for snail mail.

Bob has been very busy at school and writing his teaching blog. He will be retiring from teaching in two years, and then we will have to decide how his retirement will affect the future of Coenosium Gardens. We will be sure to keep you informed about any decisions or changes regarding our plant business.

ORDERING

All prices stated in this catalog void any previously listed prices.

Some cultivars sell out early due to limited availability or high demand. A substitution list may be included with your order and will be consulted, if necessary.

The minimum plant order is \$50.00, excluding packing/shipping charges, and must be paid by check or money order. ***No credit cards are accepted.***

When an order is placed, a confirmation will be sent with a deposit request needed to secure the order. A 50% minimum deposit is required for all new customers. All orders will be based on current listed prices. No deposit reminders will be sent.

If the required deposit is not sent, the order will be canceled and the plants returned to inventory.

SHIPPING

Most Coenosium Gardens orders will be shipped between April 5 and June 1.

Plants can be Fall shipped from September 27 to October 25. Customers should check the appropriate box on the order form.

All of the plants are sent in their pots via United States Priority Mail

and usually arrive in three to five days. A delivery confirmation number will track each shipment.

We do not ship plants during the months of January, February, July, August, and December.

We no longer ship to Canada or other foreign countries, but pickup at the nursery is an option. Customers will have to arrange an inspection for a phytosanitary certificate if one is needed.

Shipping charges will be billed at cost (rounded off to the next higher dollar amount) plus \$1.00 per plant for packing. The minimum packing fee is \$5.00. The maximum packing fee is \$50.00 per order.

All invoices are payable upon receipt. A \$10.00 late fee will be assessed on all overdue accounts.

All plants are guaranteed to leave Coenosium Gardens in good condition, but their survival cannot be guaranteed once they leave the nursery, as the environment can no longer be controlled by us. If any plants arrive in poor condition, ***notify us immediately in writing;*** otherwise, we will assume that there is no problem with the order.

LATE CHARGES/PENALTIES

Since we are a seasonal business, all invoices must be paid promptly. If full payment for a shipped order is not ***postmarked*** by the date shown on the invoice, a late fee of \$10.00 will be added to the bill. All late fees must be paid before any new orders will be confirmed. A \$30.00 fee will be assessed on all NSF checks.

NURSERY VISITATIONS

Coenosium Gardens is basically a mail order retail nursery. This is our hobby so we do not have regular business hours. Visitors are always welcome, but we do request that you call in advance and arrange an appointment. We can provide driving directions and can make sure we are available for your visit.

Since Bob teaches high school, weekends and school holidays are usually the best for visits, but during July and August weekday visitations can also be scheduled.

Even though our display gardens highlight the dwarf and slower growing cultivars, they also contain many large and rare specimens. Our retail area has a nice assortment of plants in 5 1/2" pots and some #1 (1 gallon) containers.
